

Pasture Improvement 2015 Workshop Series É Part 1

# Whole Farm Planning for Graziers Workshop with Ben Bartlett

This full day workshop will provide participants with new ideas for their grazing systems and further develop knowledge and skills to make their grazing programs more effective. Learn from **grazing expert Ben Bartlett** who will inspire you to make the soil and livestock work harder for you by applying knowledge of plant physiology, soil health and practical grazing tips and techniques. Saul Fraleigh will provide an overview of the modern technology available to help plan your grazing activities including field mapping and grazing calculators.
